

AMR Cart

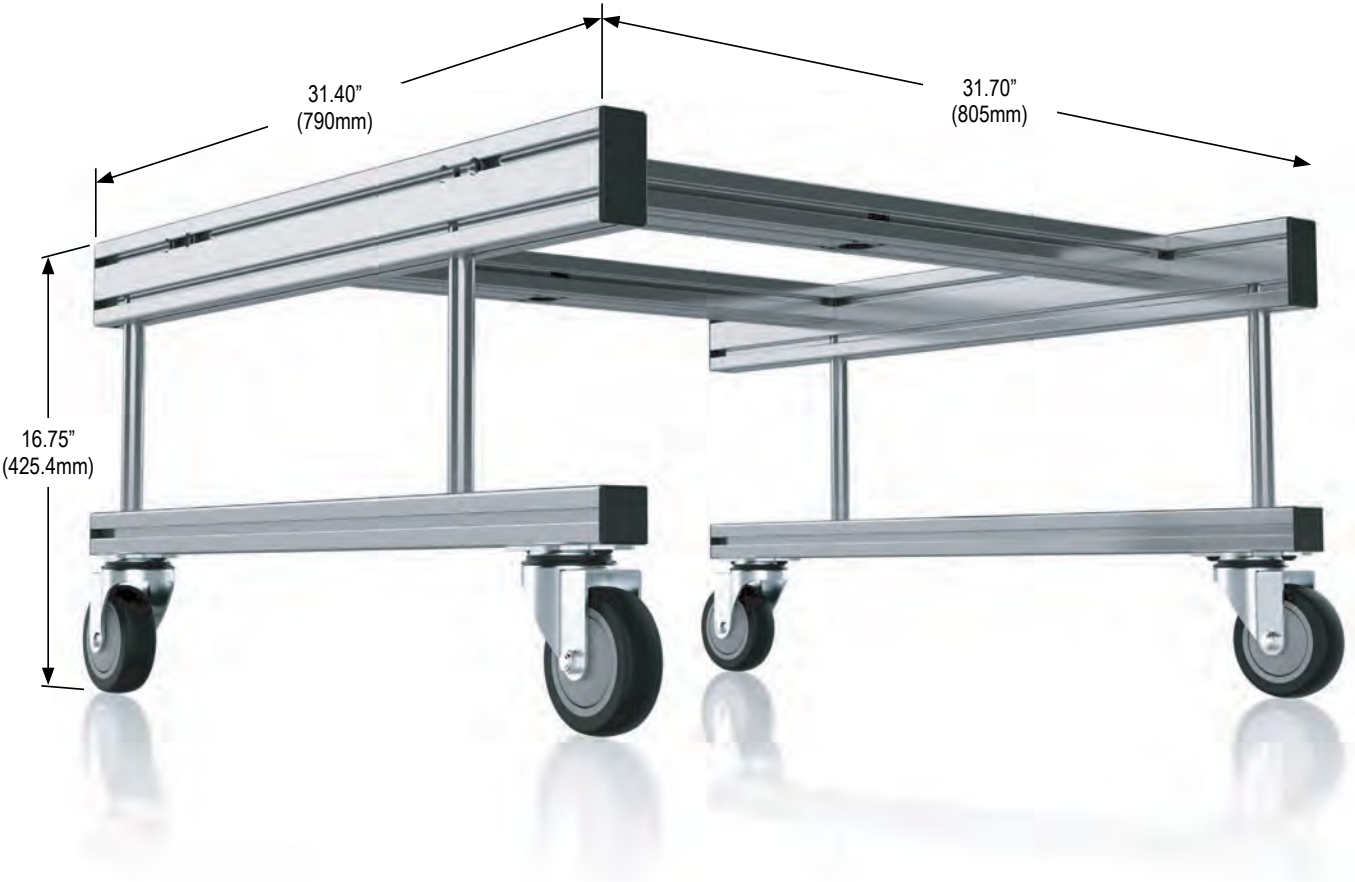

for the MiR 250 Robot
with MiR Shelf Carrier 250™

Product Details

- Designed for use with MiR 250 Robot with MiR Shelf Carrier 250™
- Improves Operational Efficiency — By pairing carts with AMRs, facilities can automate material movement, reduce bottlenecks, and keep production lines supplied without interruption
- Customizable Solutions — Add custom solutions such as hand bars, panels, shelves, cabinets, and gravity rollers
- Compatible with 40 Series profiles and accessories
- Easily maneuverable without the use of a robot
- Increases payload versatility — Transport raw materials, components, finished goods, totes, pallets, and custom loads across multiple applications
- 1,323 lb (600 kg) weight capacity
- Includes 4 heavy duty polyurethane ESD swivel casters
