

## Double Slide-In Economy T-Nut

### Part Description:

The double slide-in economy T-nut is a fastening option that saves time and simplifies the assembly process. It loads from the profile ends and is available with options in size and finish. The pilot projection adds additional threading for increased strength. There is also a triple slide-in economy T-nut available (page 367). For information on 80/20 screw and bolt offerings for the double slide-in economy T-nut refer to pages beginning on 387. **Tip:** Position the pilot projection down in the T-slot to avoid an uneven connection or crashing.

Part No.	Series	Material	Grade	Finish	A	B	C	D (Thread)	E	F	Weight
3281	10	Steel	1010	Black Zinc	1.375"	1.000"	.443"	8-32	.030"	.124"	.015 lb
3280	10			Black Zinc	1.875"	1.000"	.443"	1/4-20	.050"	.144"	.019 lb
3800	10			Bright Zinc	1.875"	1.000"	.443"	M6 x 1.0	.050"	.144"	.020 lb
3279	15			Black Zinc	2.813"	1.500"	.638"	5/16-18	.080"	.222"	.061 lb
3879	15			Bright Zinc	3.000"	1.500"	.638"	M8 x 1.25	.080"	.222"	.067 lb
25-1962	25			Bright Zinc	47.60mm	25.00mm	11.20mm	M6 x 1.0	1.27mm	3.68mm	.0093 kg
