

Push Fittings For
5/32 Tubing

WARNING: All Airmite controls are designed to operate pneumatic valves and cylinders. They are not to be used with flywheel presses, brake presses or similar devices. It is the users responsibility to determine the use and mounting location of this device. The SC3000 performs the function of a two-hand-no-tie-down control only. All other prescribed safety devices must be used with this equipment. It is the users responsibility to determine the proper application location and use of this equipment.

The SC3000 meets or exceeds all applicable OSHA Standards of this date including 1910.217(6), 1910.217(b)(13). The SC3000 meets ANSI B11 Standards as they apply to operating pneumatic and hydraulic cylinders.
