**LINAK**   
WE IMPROVE YOUR LIFE

## The Original

LINAK® products have set the standard for electric height adjustable desks in the office furniture market. While companies may try to copy our designs, they cannot copy the details, quality characteristics and manufacturing processes born from decades of experience and a passion for excellence.

Based on decades of experience, we know why our customers partner with us:

- High quality and innovative solutions
- System reliability
- Trusted delivery/supply chain
- Knowledge and service

## 5 Year Warranty

As the leader in actuator technology, we have established a five-year warranty for manufacturing defects on all our DESKLINE products. As a market standard, there is 12 month warranty on batteries.

We use high-quality components, state-of-the-art production, and the most demanding testing standards in the industry to achieve excellent quality. This results in our extraordinarily low DPPM (defective parts per million).

Because Quality Matters

## Only the Best for Everybody

LINAK innovates continuously to improve its standard. When we innovate, we offer the innovation as a standard feature available for all of our DESKLINE® customers.

Among our most recent innovations you find the software Desk Control™, which encourages users to stand more during the day to improve their health and productivity. What is more, all DESKLINE control boxes use ZERO™ technology. ZERO™ means an extremely low standby power consumption, resulting in less emissions and less power consumption. Another innovation is PIEZO™ where a sensor detects obstructions, then halts and reverses to avoid collision.

For health reasons, and for the sake of the environment, LINAK also offers entire PVC-free™ systems - systems free of polyvinyl chloride.

These innovations are all available as a standard to all of our DESKLINE customers.

Generally, DESKLINE systems are true systems where everything fits – it is simply Plug & Play. This means that columns are compatible with all DESKLINE control boxes and all DESKLINE controls – giving you optimum freedom to design.

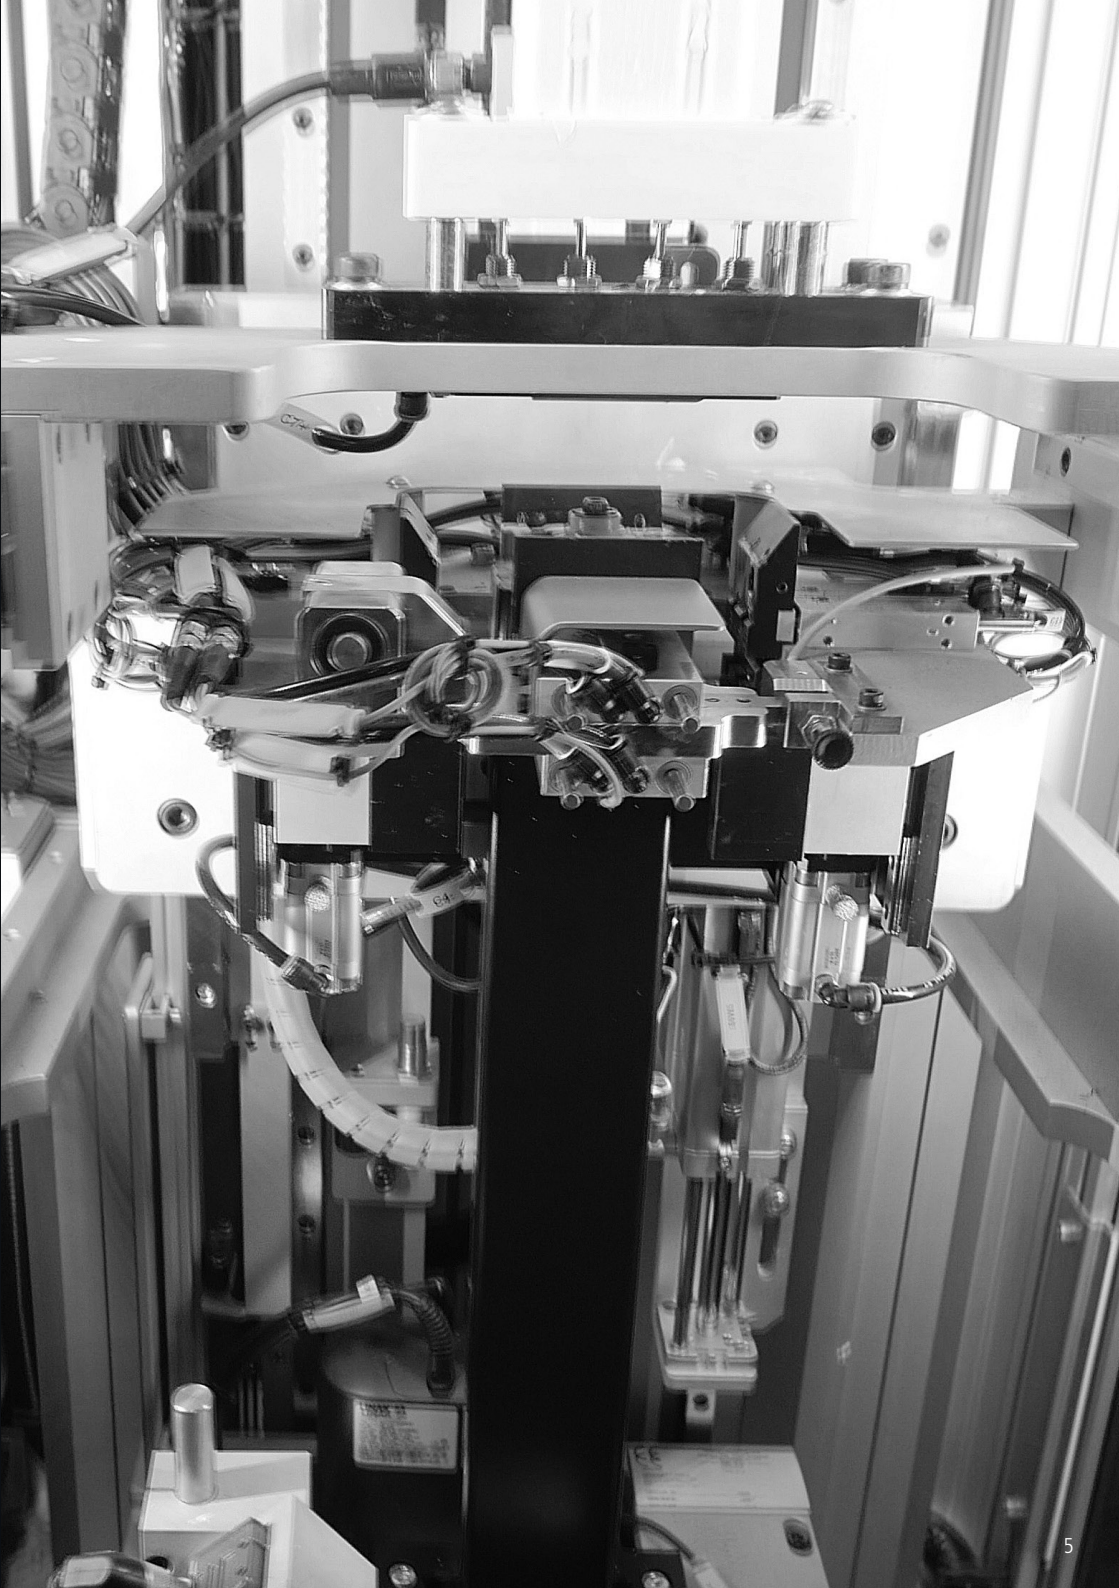

## State-of-the-art Production

State-of-the-art production facilities is one of the reasons that LINAK actuators are of such high quality. We have an extraordinarily low DPPM (defective parts per million), which is achieved with high quality components, semi-automatic state-of-the-art production, competent and experienced personnel as well as rigorous testing. All of this translates into a high-quality product. At LINAK we focus on LEAN production, which ensures a minimum of waste. We continually optimise processes looking for new ways to improve.

To expedite delivery we have manufacturing plants in:

- Denmark
- The United States
- China
- Slovakia

## Cooperating to Achieve Excellence

LINAK is the supplier of electric height adjustable desks and we specialise in both lifting columns (electric actuators), control boxes, controls and switches. Our expert DESKLINE® teams ensure compatibility on all levels to give you a complete system from one supplier. We offer consistent speeds, excellent stability, forwards/backwards compatibility and many optional upgrades.

Our products can make up a large and essential part of a desk. Therefore, we strive to have LINAK products complement your product and make your design possible as well as present you with solutions instead of limitations.

We continuously work with our partners, bringing new and innovative ideas to the marketplace. By keeping engineering close to production, we easily implement new ideas and realise a quicker time to market.

## Present Worldwide

Your LINAK sales team is never far away to offer innovative, competitive solutions and we are available when you need us. This is precisely why LINAK has approximately 1,900 dedicated employees in 35 countries.

Our global and regional presence ensures that there is always LINAK support nearby. Enabling us to work with you from the early specification phase to the end of the product lifetime.

### Terms of use

The user is responsible for determining the suitability of LINAK products for a specific application. LINAK takes great care in providing accurate and up-to-date information on its products. However, due to continuous development in order to improve its products, LINAK products are subject to frequent modifications and changes without prior notice. Therefore, LINAK cannot guarantee the correct and actual status of said information on its products. While LINAK uses its best efforts to fulfil orders, LINAK cannot, for the same reasons as mentioned above, guarantee the availability of any particular product. Therefore, LINAK reserves the right to discontinue the sale of any product displayed on its website or listed in its catalogues or other written material drawn up by LINAK.

All sales are subject to the Standard Terms of Sale and Delivery for LINAK. For a copy hereof, please contact LINAK.
